9th International Food Safety Congress

Dear Sector Representatives,

We are pleased to invite you to become a sponsor of the **9th International Food Safety Congress**, organized by the **Food Safety Association**, which will be held on **November 5–6, 2026**, at the **Grand Cevahir Hotel and Convention Center in Istanbul**. Our Congress holds the distinction of being the only international congress in our country and region solely dedicated to food safety.

Held under the slogan “Access to Safe Food: Everyone’s Right, Everyone’s Responsibility,” the 9th Congress will place particular emphasis not only on knowledge sharing, but also on showcasing best practices, field experiences, and innovative solutions. With an increased number of interactive sessions, participants will be encouraged to take an active role in shaping the program through their insights and contributions, rather than remaining passive listeners.

This comprehensive and prestigious event offers you the opportunity to:

- Enhance the visibility of your leadership and expertise in the field of food safety,
- Reach your target market directly and develop new business collaborations,
- Establish one-on-one connections with potential business partners from around the world.

In this context, we cordially invite you to sponsor the 9th International Food Safety Congress.

Following the continued growth of our Congress in 2024 with the support of 25 private sector sponsors, 16 partners, and 20 supporting institutions, we would be delighted to welcome you among us again this year.

For sponsorship options and detailed information, you may review the Sponsorship Brochure, and access information regarding exhibition areas via our website. For any questions related to the process, please feel free to contact the Congress Secretariat at ggk@papyon.com.tr.

With the hope of shaping the future of food safety together, we look forward to welcoming you at the 9th International Food Safety Congress.

Sincerely,

Organizing Committee of the 9th International Food Safety Congress
